That the expenditures of the Long Dock Company are judicious, and sure to prove profitable to the New York and Eric Railroad Company, no one can doubt who will examine the subject. The New York and Eric Railroad Company, have a lease (with the right to purchase at the original cost at any time after six years) of the entire property of the Long Dock Company, consisting of over 2,500 lots of ground, exclusive of the streets opened, or to be opened, with ferry privileges, ferry slips and wharves now in construction. The wharves will offer 7,746 lines feet of berth room. Vessels drawing 20 feet of water will receive the heavy products of the Wort directly from the cars, or from warehouses into which the ears will round the unleaded in any weather, without danger of injury to property. The facilities and concomy which this will offer to shippers and receivers must largely increase the traile of the New York and Eric Railroad Company, whereas at prosent, the ferrings of the passengers and merchandise is a heavy tax on the Company.

All portion of the 2,500 lots not needed by the New York and Eric Railroad Company can be sold at any time, and by the terms of the lease the proceeds must be applied to the extinguishment of a debt incurred for the improvement of the Long Dock property. The value of this property must be very great whenever the New-York and Eric Company transfer their traffic to the new torminus.
